DevOps Engineer | 5+ Years Experience in CI/CD, Cloud, and Platform Enablement

- **Cloud & Containers:** AWS, GCP, Docker, OpenShift
- **CI/CD & DevOps:** Jenkins, GitLab, uDeploy, JFrog Artifactory
- **Development & Security:** Java, [Node.js](#), JavaScript, REST APIs, Maven, Checkmarx, AppScan, Linux

Employment

Mariner Innovations - Software Development Contractor

Saint John, NB | Nov 2022 - Apr 2024

- Delivered full-stack software solutions across enterprise client accounts, including NB Power and Bell Canada
- Contributed to full-stack web applications using Java, HTML, and JavaScript for highly regulated enterprise environments
- Adapted to client infrastructure and supported deployments, QA, and debugging across staging and production
- Produced and maintained technical documentation to support system reliability, onboarding, and knowledge transfer

Bell Canada – DevOps Engineer

Saint John, NB | Nov 2019 - Nov 2022

- Part of a centralized DevOps enablement team defining CI/CD standards and tooling across enterprise development teams
- Designed CI/CD workflows using GitLab, Jenkins, Docker, and Artifactory for scalable software delivery
- Integrated security into pipelines using Checkmarx, AppScan, and automated container scanning
- Built base Docker images and custom Jenkins plugins to streamline developer workflows
- Collaborated on PoC initiatives and deployment of internal applications on OpenShift, including LDAP-integrated tools
- Ensured compliance with private cloud security standards across CI/CD pipelines, containers, and deployments

Cardinal Path – Technical Consultant, Implementation

Saint John, NB | Oct 2018 - Nov 2019

- Implemented and supported **Google Analytics** solutions for enterprise clients
- Assisted with configuration, validation, and troubleshooting of analytics platforms
- Developed repeatable implementation and QA processes to improve reliability
- Supported internal teams with tooling, documentation, and knowledge sharing
- Worked with client development teams to ensure consistent and accurate data collection

Dream Payments – Full Stack Java Developer

Moncton, NB | June 2017 - June 2018

- Developed and maintained **full-stack** web applications in a team environment
- Implemented backend services and APIs to support web applications
- Contributed to **CI/CD** pipelines using **Jenkins**, **Docker**, and **Maven**

Real Estate Agent - Self Employed

Saint John, NB | Apr 2024 - Present

- Managed client relationships and complex transactions in a deadline-driven environment
- Generated leads through marketing campaigns and negotiated deals across stakeholders

Education & Certifications

- **Bachelor of Computer Science** - University of New Brunswick | 2013 – 2017
- **Google Associate Cloud Engineer:** Oct 2019
- **Amazon AWS Associate Cloud Developer:** April 2022
